Working in Confined Spaces

At the end of this course you'll be able to demonstrate your understanding of the control measures to be followed when working in, or near to, confined spaces as detailed in a safe working procedure

This course will cover the legislation associated with working in confined spaces. What constitutes a confined space, the potential hazards, safe operating procedures, emergency procedures and rescue.

Important note: This is an awareness course only, designed for people who need to be aware of the hazards and risks of confined space working but are not required to enter a confined space. If you are required to perform any work activity in, or in the proximity of, a confined space then you will also need to have an 'approved' standard of practical training at the 'appropriate' level.

Course	Module Number	Module Name	Pass % Required
Working in Confined Spaces	1	The Law	70
Working in Confined Spaces	2	Confined Space and the Dangers?	70
Working in Confined Spaces	3	Safe Procedures	70
Working in Confined Spaces	4	Communication, Emergencies and Paperwork	70
